

Industrial vacuum cleaner 510 E

Configurable industrial vacuum cleaner with liquid extraction ability.

Introducing the 510E model industrial vacuum cleaner, designed to meet the demanding needs of industrial environments. Featuring an electrically powered suction head with three motors, this vacuum is engineered to handle industrial-grade wet and dry applications, excluding combustible dusts. Different nozzle and hose options are available to meet diverse application needs, making it a versatile asset in industrial settings.

- High material collection capacity.
- Easy material discharge by tippable container.
- Fork lift handling.

Product name	Industrial vacuum cleaner 510 E
Installation	Indoor
Filter cleaning method	One way filter
Application	Liquid, Granulate, Chip
Dustbin volume (gal)	160
Hose Diameter (in)	2,01
Hose length (ft.)	19,7
Filter Area (ft ²)	6

Granulate Chip Liquid
